

## Brothers Bait Bag

### Abstract:

A fishing lure comprised of a bag formed of open mesh material closed at one end and open at the opposite end. Having a drawstring for drawing the open end closed. Thereby enclosing at least a portion of a fishhook placed within the bag, and a leader attached to the fishhook and extending through the open end drawstring portion of the bag. The bait may be placed on a fishhook and the bag then closed by the drawstring. The bait being readily visible, olfactory attractive to fish by reason of the open mesh characteristic of the bag, scent, or color of the bag, with a fishhook being readily able to penetrate the bag by reason of its open mesh characteristics for hooking a fish.
